

# James White

## Backend Software developer

Bend, Or • whitejaad@gmail.com • 916.580.9916 • [Linkedin](#) • [Github](#) • [Portfolio](#)

### SKILLS

---

- Ruby
- Ruby on Rails
- SQL
- Active Record(AR)
- Postico
- PostgreSQL
- Heroku
- API's
- Test Driven Development
- Rest
- Slack
- Zoom
- 20+ years of Leadership
- Operational Excellence
- Results driven
- Culture leader

### SOFTWARE PROJECTS

---

#### [Streamr](#), Capstone Group

Seven Partner Project collaboration with

**Tech Stack:** Ruby, Rails, RSpec, Capybara, TypeScript, JavaScript, HTML5, CSS, Sass, GraphQL

Streamr organizes your recommended shows in one place and provides its streaming details for ease.

- Utilized Agile methodologies such as roadmap planning, user stories, stand-up meetings, retros and backlog refinement. Github projects, Zoom, and slack for communication execution.
- Collaborated with back-end and front-end teams to employ GraphQL and customized queries for efficient network requests
- Aggregated data from the MovieDatabase's API to streamline data access.

#### [BrüCycle](#), Consultancy Project

Five person group projects completed both Front end application and Back end applications.

**Tech Stack:** Ruby, Rails, RSpec, Capybara, Heroku, HTML

- Organized through Git projects, Miro board and google calendar to ensure seamless teamwork. Setup Daily stand/ups regular communication to ensure seamless teamwork.
- As a team we each successfully worked on all aspects of the project. Team consisted of two on the front-end, two on the back-end, and one on documentation. We rotated in 3 day sprints to give each member of the team experience throughout the application.
- Communicated with a project manager to set MVP, milestones and extension work.

#### [Little Esty Shop](#), Five person group project

Five person project built an application that mocked an online sales service. Including merchants-items-invoices-customers.

**Tech Stack:** Ruby, Rails, RSpec, Capybara, Heroku

- Utilized Git projects and google calendar to ensure seamless teamwork. With a deadline of 10 days as a team we created an Organized code, utilizing consistent testing at a 99.96% testing coverage. Following MVC structure. We deployed a successful application as a team.
- Followed up with project members to ensure all metrics were met. Utilized our project board and communication tools to ensure milestones were met.

---

### Experience-

#### July 2000 to Current- Starbucks Coffee Company- Store Manager

- New store opening operations, walking punch lists and ensuring follow up. Integral in opening 15+ stores.
- Experience with many different business volumes. Store growth expanded to each store positive sales comps consistently.
- Certified Training Store Manager-I have trained over 30 partners from Assistant Store Managers, Store Managers, and one Licensed Operated District Manager. Continuously developed members of each of my teams, leading to multiple promotions. Received the Manager of the Quarter award on three separate occasions.

---

### EDUCATION-

**Turing School of Software and Design**, Denver, CO

August 2022 - Present

Accredited Backend Software Engineering Certificate

- 1500+ hours of programming experience over a 7 month intensive, ACCET-accredited software development program.
