SKILLS

Ruby • Rails • Python • RSpec • GitHub • Github Projects • HTML • CSS • SQL • Postgresql • GraphQL • Documentation • Redis • Sidekiq • Postico • Postman

PROJECTS

SPELLBINDER

Led a team of four software developers in the complete development of a website that interfaces with the Magic the Gathering API, enabling users to create customized decks. The project features a micro-service architecture and includes the following technologies: RSpec, CircleCi, Postgresql, Google OAuth, Pagination, Timed Inactive Logout, and Heroku.

GEAR UP

Collaborated with a team of six developers to build an e-commerce Rails application. This application harnesses the power of GraphQL, Redis, Sidekiq, and Postgresql, enabling users to initiate and fund projects created by other users.

EXPERIENCE

Student - Turing School of Software and Design

2023-present; Denver, CO

- Used Ruby on Rails to create full-stack applications and APIs.
- Designed and created APIs with a focus on creating seamless integrations and user experiences
- Independently learned and incorporated additional techs such as GraphQL, Google OAuth, Heroku, CircleCI, Locust, Redis, and Sidekiq.

End User Support Engineer – designDATA

2021-2022; Gathersburg, MD

- Consistently achieved a 95% first-call resolution rate
- Resolved an average of 30 application and systems access issues daily
- Played a key role in reducing the average resolution time by 20% through close collaboration with Tier 3 technicians
- Maintained a 98% positive feedback rating from clients

Graphic Designer – Glee Co.

2021-2022; Bowie, MD

- Delivered creative digital assets for website, apps, and video projects
- Doubled traffic on Instagram and Facebook in under two months
- Assisted in increasing live stream donations and views by 25% in two months

Bartender / Barista – Cascadia Coffee Pub

2019-2020; Portland, OR

Graphic Designer – Heineken

2018-2019; Savannah, GA

- Assisted in the design of web and print assets using Adobe Illustrator, Photoshop, and InDesign
- Designed client slides and presentations based on consumer habits and recycling data
- Designed interactive, sustainable solutions to boost consumer recycling.
