- VS Code

## PROJECTS

---

### Swolify Front-End Repo: [Swolify](#)

- **Description:** Assembled a Fitness App project, that allows someone new or advanced to get a good sweat in and have fun!
- **Learning Goals:** Gain experience working with a full team Front-End and Back-end to develop an app. My biggest takeaway was learning how to appropriate ways to communicate and problem solve with the back-end to be successful.
- **Tech Stack Used:** JavaScript, React, Apollo client, GraphQL, Cypress Testing, CSS

### RomCom Paired Project Repo: [RomCom](#)

- **Description:** Designed a website for romantic novels! The user is able to create their own romantic novel book cover and add their favorite covers and also be able to delete them!
- **Learning Goals:** Experience writing DRY JavaScript to store data, along with working with DOM manipulation to get the favorite covers to render and also be deleted, and Object-Oriented Programming
- **Tech Stack Used:** JavaScript, HTML5, CSS

### Overlook Hotel Solo Project Repo: [Overlook Hotel](#)

- **Description:** Developed a website for booking your next adventure! This project features being a user and going through the process of a hotel booking, you are able to login, view the current, past, and present bookings or book a room for a date that you would like to have
- **Learning Goals:** Experience with APIs to send and receive data, along with creating a robust testing suite that thoroughly tests for all client side-applications, and working with continuous use of Object-Oriented Programming
- **Tech used:** TDD Api calls using fetch, Mocha, Chai, Node.js, JS, CSS, Webpack

## EXPERIENCE

---

**Sales Representative** , AutoNation

March 2016 – Feb 2020

- Worked with management and co-workers daily to hit a target sales goal
- Maintained Customer Relations
- Work with outside suppliers and other dealerships
- Used compass database to keep up with customers and scheduling different tasks

## EDUCATION
