SKILLS

Ruby/Rails | ActiveRecord | Rspec | SQl | OOP | TDD | Git Version control | Rest APIs | MVC | Capybara | pry | GitHub | SOA | AWS s3

PROJECTS

Back Country Bookings — Ruby on Rails group SOA project

- Designed using Ruby/Rails, TDD, Active record, Rspec, AWS s3
- With a frontend and a backend team we constructed an application where users can go to find information about National Park Campgrounds.

Trails N Brews — Ruby on Rails SOA Group Project

- The goal of this project was to build a successful web application from a student-led project idea. an app that connects users to a trail head and displays the closest breweries to the trail.
- Allowed users to authenticate with a third-party service, and consumed two other apis.

Viewing party - Ruby on Rails partner Project

- Created using Ruby/Rails, TDD, Active record, Rspec, Webmock, Rspec, MVC
- Consumed and tested JSON APIs in a Ruby/Rails project to make a movie viewing party where you can pick a movie and invite other users to a scheduled date and time to view the movie.
