- Creative back-end software developer with healthcare provider experience. Passionate about creating robust and efficient applications that improve the healthcare experience for both patients and providers

SKILLS

- **Languages & Frameworks:** Ruby, Java, Ruby on Rails, HTML, CSS
- **Databases:** SQL, PostgreSQL, ActiveRecord
- **Tools:** Git, GitHub, GitHub Projects, Postman
- **Test-Driven Development:** RSpec, Capybara

TECHNICAL PROJECTS

Grateful Together   Sept 2023

- Daily, live-updated gratitude journal shared between multiple users
- Worked in an eight-person full stack team and incorporated agile methodologies including daily stand-ups, sprint planning, code reviews, and retrospectives
- Incorporated WebSockets via ActionCable to allow for real-time journal entry updates
- Ruby on Rails, PostgreSQL, WebSockets, ActionCable, CircleCI, RSpec, TDD

Jana Social   August 2023

- Social medication application that connects caregivers of people with disabilities
- Three teams of four back-end students worked on both back-end and front-end Ruby on Rails monoliths
- Designed and built a self-referential database that creates friendships between users after two-sided approval
- Ruby on Rails, PostgreSQL, ActiveRecord, REST API, Geolocation and Geocoding, RSpec, TDD, Javascript

Lunch and Learn   July 2023

- RESTful API application built in Rails that consumed four external APIs and created endpoints for an application that allows users to search for recipes by country and then learn about that country via videos and pictures
- Incorporates authentication and authorization for API consumption
- Ruby on Rails, REST API, PostgreSQL, TDD, Spec, Authentication, Authorization

PROFESSIONAL EXPERIENCE

Inpatient Clinical Pharmacist   July 2014 – June 2020
UCHealth

- Areas of proficiency include sterile compounding, internal medicine, cardiology, infectious disease, anticoagulation, critical care, cardiothoracic surgery, and operating room medicine
