GitHub

RECENT PROJECTS

Bibliotheca Sundeliana - *Solo Project, 4 days*

[Deployed App](#)

[Repo](#)

JavaScript - React, CSS3 - Cypress - Netlify

- Created a web app which interacts with a Bible API that allows a user to view and save verses
- Displayed excellent growth in error handling and problem solving, efficiently leaning on resources
- Expanded confidence with fetch requests

Dirtr - *Group Project, Frontend Team, 2.5 weeks*

[Deployed App](#)

[Repo](#)

JavaScript - React - Redux - CSS3 - Cypress - Netlify

- Collaborated with a full-stack team to create an offroad-trail-finder app from scratch
- Independently learned and applied Redux and Redux Persist
- Gained firsthand experience to understand backend development and cross-stack collaboration

PAST JOB EXPERIENCE

Council on American-Islamic Relations - *Intern*

- Thrived in a remote work environment following a quick onboarding process
- Handled a wide array of tasks in a tight-deadline, nonprofit company

Target Corporation - *General Merchandise*

- Took initiative rallying a group of employees to perform their best
- Combined efforts with a busy team under high-pressure situations

Pivot Health (Independent Contractor) - *Data Clerk*

- Transferred company files from various sources to an organized Google Sheets document
- Grew capacity to work independently and hold myself to a good pace
