- Procreate

- UX/UI design
- InDesign
- Express

SOFTWARE PROJECTS

Tic Tac Toe, solo project | 50-60 hours | [Repository](#) | [Deployed Link](#)

Stack: JavaScript, HTML, CSS, SCSS

Developed a web application enabling users to play tic tac toe with friends or against a computer

- Leveraged professional design skills to design welcoming, visually appealing UI/UX using SCSS
- Independently learned and implemented local storage, and class inheritance during my first module at Turing
- Self taught iterator methods in order to create a strategic computer opponent

Rancid Tomatillos, team project | 10-15 hours | [Repository](#) | [Deployed Link](#)

Stack: React, CSS, JSX, Day.js, Cypress

Developed a dynamic web application utilizing the React framework showcasing movie information.

- Ensured reliability and quality by implementing comprehensive testing methodologies, including React PropTypes and Cypress.
- Implemented asynchronous programming techniques across multiple timezones, including daily stand up meetings to optimize productivity.
- Incorporated project managers & mentors feedback through ongoing code reviews

Travel Tracker, Solo Project | 30 Hours | [Repository](#)

Stack: JavaScript, HTML, CSS, SCSS, Day.js, Chart.js

Developed a web application to plan and manage trips

- Leveraged knowledge of third-party API's to give users access to real-time event data
- Allowed user input data to persist by utilizing POST fetch requests
- Designed an interactive and professional UI/UX

PROFESSIONAL EXPERIENCE

La Colombe, Barista, Philadelphia, Penn.   12/2022

- Repeatedly broke company all time sales records while maintaining great customer service
- Serviced hundreds of customers, resulting in $23,000 in daily sales

EDUCATION

Turing School of Software and Design, Denver, CO   08 / 2023

Accredited Frontend Software Engineering Certificate
