Summary

Passionate and results-driven professional with a decade of experience in the non-profit sector, both domestically and abroad. Seeking a challenging role in the tech industry to leverage my skills for meaningful impact. Eager to contribute to a team that is building products addressing real-world problems.

Technical Skills

Languages/ Frameworks: Ruby on Rails, ActiveRecord, SQL, GraphQL, HTML, CSS

Testing: Test Driven Development, RSpec, Webmock, VCR

Tools/Workflow: Git, Github, Heroku, Render, CircleCI, REST APIs, Postman,

Exposure/Learning: AWS, Tailwind, Python, Open to any technology

Projects

Weather Together | [Github](#) | [Deployed Link](#) **Tech:** Ruby on Rails, PostgreSQL, Render, React

Fun interactive weather geo-guessing game that utilizes real-world data while competing for high scores.

- Implemented several backend functionalities, including user creation and mailer setup for account activation, as well as the consumption and formatting of external weather API data.
- Developed API endpoints for retrieving recent rounds, current community rounds, and managing votes for rounds, resulting in a seamless backend experience for users.

FasTracks | [Github](#) | [Deployed Link](#) **Tech:** Spotify API, Ruby on Rails, Faraday, Heroku

Application allows users to create custom spotify playlists for users based on their workout & preferences.

- Implemented backend logic to interact with Spotify API and generate workout playlists based on user preferences, enhancing user experience and eliminating the need for manual playlist creation.
- Integrated authentication and playlist criteria from the frontend, enabling seamless communication between FasTracks BE and FasTracks FE repositories.

Market Money | [Github BE](#) | [Github FE](#) **Tech:** Ruby on Rails, React Router, Redux, Fetch APIs

Micro Service Architecture that is responsible for providing functionality for Farmers Market & Vendors.

- Developed an API to expose Farmers Market & Vendors data, enabling frontend consumption and enhancing user experience.
- Implemented JSON serializers to format responses and conducted thorough testing to ensure reliability and functionality.

Professional Experience

Dedicated Nonprofit Professional with 10 years of experience at City Church, NLC of Arkansas, and Mission of Hope

- Focused on advancing their missions and impacting communities positively.
- Developed programs, community outreach, and organizational growth, contributing to the overall success and impact of these nonprofits.

Experienced Project Manager with 8 years of experience in project planning, team coordination, and budget management

- Spearheaded projects by meticulously planning, coordinating teams, and managing budgets, ensuring seamless execution and successful outcomes for various initiatives.
- Allocated resources efficiently, streamlined workflows, and the timely delivery of high-quality results.

Seasoned Hospitality Professional with 3 years of expertise at Zeteo Coffee, Onyx Coffee Lab, and Founder of Press + Pour

- Established Press + Pour, from inception to operation, managing all aspects of the business.
- Successfully led a team, serving thousands of satisfied customers, while also spearheading comprehensive training programs to ensure excellence in service delivery and customer satisfaction.

Results-Driven Marketing Specialist with 1 year of experience at Dave Creek Media

- Your specific contributions
- Results and Impact
