Summary

- Driven and analytically minded developer with a broad skill set. Proven success building and leading teams while dynamically setting goals and priorities; able to adapt quickly while staying on target. Strong background in biochemistry, data management and analysis, and stakeholder and operations management.

Languages & Technologies

- **Proficient:** Rails, Ruby on Rails, PostgreSQL, RSpec, Fly.io, Heroku, REST API, GitHub, Postman, Service Oriented Architecture, Test Driven Development, CircleCI/Github Actions, HTML/CSS
- **Exposure:** AWS (EC2, S3), Tailwind, Python, Django, Flask, Docker

Project Work

Flakes Of Wrath | group project | [GitHub Repo](#) | [Launch App](#) | 120 Hours

- Remotely led a team to design and create a Ruby on Rails app using an agile workflow. The app provides a one-stop-shop for backcountry trip planning with avalanche risk prediction, and won the Demo Competition Award for excellence.

Squeakr | group project | [GitHub Repo](#) | [Launch App](#) 140 Hours

- Remotely collaborated with a large team including front-end and back-end developers to create a Twitter alternative that processes external and internal APIs to provide data for a simple machine learning model to assist with content moderation.
- Set project scope, deadlines, and milestones, and quickly learned graphql requirements for both Javascript and Ruby on Rails to drive communication between teams.

Experience

Evergreen Strategies | Founder/Partner | 2019-2022

Campaign Management/Political Campaign Consulting

Managed 5 campaigns for Colorado candidates and initiatives. Built campaign infrastructure, milestones, and deadlines, as well as hiring/training staff from the ground up. Met with stakeholders to determine future legislative priorities. Achieved record turnout in multiple races across three campaign cycles, making over 1 million voter contact events in the process.

House Majority Party | Campaign Manager → Regional Field Director | 2018-2019

Managed a campaign for Colorado State Rep. Dafna Michaelson Jenet in a key district, winning with a 16% margin of victory and raising a record amount of money for a state house race within the district.

Wilkinson-Barker-Knauer | Law Clerk | 2017-2018

Tracked legislation and assessed its potential impact on clients, while integrating input from partners.

National Institutes of Health | Research Fellow | 2015-2016

Conducted transcriptomic research focusing on discovery of a gene expression network for consciousness, resulting in novel findings on gene expression during and after the effects of general anesthesia.

Education

Certificate Program, Turing School of Software Design

Graduation Date: January 2023

B.A. Biochemistry, Colorado College

Graduation Date: June 2016
