- HTML

### SOFTWARE PROJECTS

---

#### Re\*Sip\*e | [Deployed Site](#) | 7 Person Team

December 2022

- Designed a website for bars to easily maintain, modify, and search through their collection of drinks.
- Worked hand in hand with a backend team of 4 peers to create a fully functioning application.
- Technologies Used: React, React Router, CSS, CircleCI, GraphQL, Cypress Testing, Chrome Dev Tools, Github

#### Cocktail Creator | [Deployed Site](#) | Solo Project

October 2022

- Created an interactive web page that displays cocktails and allows the user to see the details and rate a specific cocktail
- Enhanced the interactive aspect by filtering through drinks as a user types into a search bar
- Contributed by writing React, with the implementation of Router and Cypress testing to create a functional web page
- Technologies Used: React, React Router, Swiper, CSS, Cypress Testing, Express, JS, Chrome Dev Tools, Github

#### Canine Cupid | [Deployed Site](#) | 3 Person Team

November 2022

- Provided a fluid and responsive client-side interface that allows the user to choose a personality and get matched with dogs.
- Contributed by writing TypeScript to filter through dogs dependent on certain temperaments and add functionality to favorite dogs, and see more information on a dog
- Technologies Used: TypeScript, CSS, Cypress Testing, React, React Router, Github

### EDUCATION

---

**Turing School of Software and Design**, Denver, CO  
Accredited Frontend Software Engineering Certificate

July 2022 - January 2023

**Texas Tech University**, Lubbock, TX  
Bachelor of Science in Mechanical Engineering  
Minor in Mathematics

May 2022  
GPA 3.42

### EXPERIENCE

---

**Green Dragon**, Marketing Assistant Intern, Denver, CO

May 2021 - August 2021
