

Angie Staffieri

Front-End Engineer

Denver, CO • (303) 263-7598 • angie.staffieri@gmail.com [LinkedIn](#) || [Github](#)

SKILLS

JavaScript | Git/GitHub | React | React Native | Test Driven Development (TDD) | Mocha/Chai | CSS | HTML | Cypress | UX/UI

PROJECTS

[Doom Scroll](#), 100 hours | Group Project | React Native

This is an app that gathers data from several APIs to track current volcanoes, earthquakes, wildfires, severe storms, and nearby asteroids. Users are able to see what natural disasters are occurring around the world and then go to external sites for more information. I learned the React Native framework and styling for this project as well as the Xcode for Expo iOS Simulator.

[Quote Me](#), 60 hours | Solo Project | React

This project is for a website that shows a random quote on page load, allows a user to search for authors, and displays a brief bio with a link to the author's Wikipedia page. It is tested with Cypress.

[Rancid Tomatillos](#), 80 hours | Paired Project | React

This is a website for a movie database. It allows a user to scroll through movies, search movies, and view details about each movie. I learned React for this project and wrote and styled the components. I learned Cypress to test our code as well.

PROFESSIONAL EXPERIENCE

Argo Group

Garage Claims Examiner

October 2019 - January 2022

- Investigated more than 40 claims per month to ensure that claims were paid properly and timely.
- Served as a mentor for 4+ new adjusters on claim handling, claims investigation, and customer relations.
- Appreciated for the investigation of complex coverage claims and their ethical resolution.

American Family Insurance

Casualty Claims Adjuster

May 2018 - October 2019

- Coordinated effectively with various teams across departments to handle the full claims investigation process.
- Helped customers understand complexities of coverage and policies.

Esurance

Casualty Liability Rep A

June 2016 - May 2018

- Investigated coverage and liability and explained the results of that investigation to customers.

EDUCATION

Certificate in Front End Development / Turing School of Software and Design July 2022 - April 2023

- Rock/Pebble mentorship

B. A. History / Hillsdale College, Hillsdale, MI

Graduation May 2006
