OBJECTIVE

Seeking an opportunity with a dynamic company that offers challenging projects and fosters professional and personal growth as a developer.

SKILLS

Front-End: React | JavaScript | HTML | CSS | TypeScript | GraphQL | Apollo Client | Hooks | Router

Testing: Cypress | Mocha | Chai | CI & CD | GitHub Actions

Tools: Terminal | GitHub | Git | Slack | NPM | Webpack | Google Firebase | Microsoft Teams | Agile

PROJECTS

Inner Worlds (Group) | [Check it out](#) - [GitHub Repo](#) |

- Collaborated with a team of three front-end and five back-end developers to create a dream journal app.
- Applied agile practices to coordinate sprints, perform code reviews, and keep clear communication between front-end and back-end with daily standups.
- Utilized React Hooks and React Router, implemented GraphQL with Apollo Client, and tested with Cypress.

FurCast (Solo) | [Check it out](#) - [GitHub Repo](#) |

- Utilized React, React Hooks, React Router, and Cypress testing to create a weather app for dog walkers.
- Gained experience working with remote, unaffiliated APIs and documentation.
- Successfully implemented all application functionality and logic using functional programming.

PROFESSIONAL EXPERIENCE

Sheraton DTC - Greenwood Village, CO. **Banquet Captain, Cafe Supervisor (09/2021)-(10/2022)**

- Coordinated and executed successful banquet events, ensuring smooth operations from start to finish.
- Facilitated pre-event meetings with staff to discuss event details, resulting in well-planned and executed events that met client expectations.
- Demonstrated strong organizational skills and effective prioritization to ensure individual tasks were completed efficiently.

Office Depot - Denver, CO. **Supervisor (04/2020)-(09/2021)**

- Collaborated with team members to successfully deliver projects on time and ensure customer satisfaction.
- Streamlined order fulfillment processes by implementing effective team member communication standards, resulting in a 75% increase in efficiency.
- Leveraged sales and design technologies to surpass performance goals and drive revenue growth.

EDUCATION

Front-End Engineering Certificate **2023**

Turing School of Software and Design - Denver, CO.

- 1500 hours of programming experience using agile methodologies over a 7 month intensive ACCET accredited software development program.

Certified Notary Public **2021**

National Notary Association - Colorado
