ARNALDO APARICIO

Bridgeton, NJ • apaarn2211@gmail.com • 856-405-7668 • Linkedin, • Github • Website

SKILLS

Ruby | Rails | OAuth | SQL | OOP | Git/Version Control | GitHub | Heroku | RESTful APIs | HTML
Postman | Test Driven Development | Agile Methodologies | Amazon S3 | fly.io | Continuous Integration

SOFTWARE PROJECTS

Book Club - Group Project - App Repo - Deployed App - Server Repo - Deployed Server
- A web app where users can search for books, create a club, invite other users, and start discussions within the club.
- **Focus Areas:** Build a separate frontend and backend, agile project workflow, implement authentication via OAuth
- **Timeline:** 2 weeks
- **Technologies:** Ruby, Rails, REST API, Heroku, HTML, Google OAuth2, Google Books API, PostgreSQL

Sweater Weather - Solo Project - Server Repo - Deployed Server
- Rails API backend with endpoints exposing data relating to current and forecasted weather at a specific destination
- **Focus Areas:** Fetch data from multiple external APIs, exposing API endpoints requiring an authentication token
- **Timeline:** 1 week
- **Technologies:** Ruby, Rails, VCR (mocking tool), RSpec, MapQuest's Geocoding API, OpenWeather One Call API

Viewing Party - Paired Project - App Repo - Deployed App
- A web application that allows the user to search for movies and create a viewing party for them and other users.
- **Focus Areas:** Consume APIs requiring authentication, exposing API endpoints using TDD, deploying to Heroku
- **Timeline:** 1 week
- **Technologies:** Ruby, Rails, HTML, RSpec, VCR, Heroku, The Movie DB API, PostgreSQL

Flash Cards - Solo Project - App Repo
- A simulated flash card game where a user can see questions, make guesses, and see a final score at the end.
- **Focus Areas:** OOP with Ruby, unit testing and TDD, learn to host code on GitHub and make pull requests
- **Timeline:** 1 week
- **Technologies:** Ruby, RSpec

WORK EXPERIENCE

Back End Engineer - Turing School of Software and Design - Denver, CO   Sept 2021 – Apr 2022
- Built functional Ruby and Ruby on Rails applications in solo, paired, and group settings.
- Projects passed grading requirements for promotion.

Head Baker / Production Lead - Century Bakery - Bridgeton, NJ   Oct 2013 – Sept 2021
- In charge of teams dedicated to all the functions of production.
- Guaranteed product availability for daily customer orders.
- Helped ensure production charts were both accurate and fulfilled, based on careful projections.

EDUCATION

Certification in Back End Engineering - Turing School of Software and Design - Denver, CO   Apr 2022
- 7 month intensive, project-based, ACCET accredited software engineering program
