SKILLS

- HTML
- JavaScript
- CSS
- React

Learning

- Express
- SQL
- TypeScript
- Node.js

SOFTWARE PROJECTS

Tune Spoon, Team Project | 40 hours | [Tune Spoon Repo](#)

Tech Stack: React, Cypress, Node, Express, Knex, HTML, PostgreSQL, CSS, JavaScript, Heroku
Developed a Express application that is able to favorite albums and write reviews for those albums

Technologies Used:

- Collaborated on a team of 4 developers to create a application using Express and React
- Self-taught a Express, Knex, and SQL to create the application

ZingerZ, Group Project| 40 hours| [ZingerZ Repo](#) | [Deployed Page](#)

Tech Stack: JavaScript, HTML, CSS, React, TypeScript, Cypress, GithubPages, Router

Developed and deployed a web application that displays random dad jokes and is able to search for them using keywords.

- Implemented TypeScript to a react application to create a dad joke website
- Incorporated project managers & mentors feedback through ongoing code reviews.

Rancid Tomatillos, Paired Project | 20 Hours | [Rancid Tomatillos Repo](#)

Tech Stack: JavaScript, HTML, CSS, Cypress, React, Router

Created a React application that allows users to view a list of movies and see each movies list of data

- Utilized workflow tools to outline code architecture and functionality at a high level through Test-driven-development and Object Oriented programming.
- Exposed 3 API endpoints for a frontend application to consume and participated in API contract design and discussions
