KAI KULLER·Software Developer

Santa Fe, NM • kavakai@gmail.com • 505-577-2792 • Linkedin • Github • Website

SUMMARY

Hi! As a front end software developer I am passionate about creating high-quality web applications that delight users. I have a strong foundation in HTML, CSS, and JavaScript, and have experience working with popular front end libraries and frameworks such as React and Vue.js.

I am well-versed in responsive design principles and am committed to building websites that look great on all devices. I also have experience with version control systems such as Git, and am comfortable working in collaborative environments using tools like Jira and Trello.

In my previous role, I collaborated with other developers and stakeholders to create seamless user experiences that met business needs. I am a quick learner, always seeking to expand my skill set and stay up-to-date with the latest web development trends and technologies.

EXPERIENCE

Software Development Internship   07/2022 - current
DangerTV, Remote
- Leveraged CSS and HTML to redesign website in order to increase views, visits, and stay relevant.
- Created a responsive and accessible website to optimize usability on a wide variety of digital platforms.
- Built and shipped new components for our FireTV app, leveraging Drupal, PHP, Twig, and Javascript.

Website Contractor   05/2021 - 09/2021
Soma Integrative Bodywork and Massage, Santa Fe, NM
- Contributed to the redesign, content creation, and build of a new website with Squarespace.
- Helped increase site visits and views by creating a more cohesive and relevant page.

Massage Therapist/Guest Services/Reservations/Front Desk   08/2016 - 11/2020
Ten Thousand Waves, Santa Fe, NM
- Helped facilitate the guests relaxation and enjoyment during their visit to Ten Thousand Waves. This contributed to a daily revenue of over $10,000.
- Navigated customer complaints and discrepancies. This contributed to repeat customers making up roughly 50% of our clients.

Manager/Bartender   05/2002 - 05/2015
The Shed Restaurant, Santa Fe, NM
- Lead and coordinated staff to provide outstanding customer experiences. This contributed to the restaurant's daily sales of over $10,000.
- Prioritized and multitasked in a high volume, fast paced environment. I helped design and craft 200+ complex beverages.
- Increased sales through product knowledge and continued education.
