**Tools | Concepts:** Git/Github | Restful APIs | CRUD | OOP | MVC | SOA | Agile | VS Code | Postman

## PROJECTS

### BandAid (team of 6)

<https://github.com/BandAid-2205>

- Designed and built an app connecting bands with venues that want to book them.
- Built a robust backend handling external API consumption as well as creating endpoints for the frontend to consume.
- Combined Ruby/Rails, MVC, TDD, Git Workflow, RESTful APIs

### Critterism (team of 5)

<https://github.com/Critterism>

- Trivia game that promotes animal welfare and connects users to wildlife-related charities.
- Designed from the ground up with MVC and SOA, we consumed multiple external APIs, as well as exposing endpoints for the frontend to consume.
- Ruby/Rails, TDD, Git Workflow, Heroku, CircleCI

### Bookmarked (team of 7)

<https://github.com/The-Readers-Collective/bookmarked-api>

- App to browse and borrow or exchange books with fellow bibliophiles.
- Worked on the backend to consume external APIs, and created a GraphQL API for the frontend to consume.
- Used Ruby/Rails, GraphQL, TDD, Heroku, Git Workflow, Agile Methodologies
- Hosted Site: <https://bookmarked-fe.netlify.app/>

## SELECTED WORK EXPERIENCE

*Team Manager*, NW Flex Space, Milwaukie OR

02|2021-09|2021

- Managed a team of maintenance technicians responsible for four buildings.
- Coordinated with vendors for larger maintenance and building projects.
- Created regular reports for business owner.
- Collaborated with various departments to ensure optimal tenant experience.

*Executive Assistant*, NW Flex Space/Luxury Vehicle Care

11|2018-02|2021

- Worked directly with the owner on business development projects for two companies.
- Built strong customer relations through communication and engagement.
- Crafted documentation for employees, tenants and operations.
- Designed business reporting methods to track KPIs at both companies.
