SOFTWARE PROJECTS

Aprés Ski | [GH Organization](#) **| Group Project |** [Deployed Link](#)   **35 Hours**

Technologies Used: Bootstrap, Cypress, Mapbox, React, Redux, Typescript, Vite, Python, Django, PostgreSQL

- Collaborated with a BE team for the first time to create a true full stack Application demo
- Experimented with global state management using Redux to explore application scalability
- Utilized Vite to create a significantly faster loading application than Create React App.

Dokes | [Repository](#) **| Group Project |** [Deployed Link](#)   **40 Hours**

Technologies Used: Javascript, React, Router, MUI, GSAP, Surge, Cypress

- Created a responsive web app with a Mobile-First design.
- Implemented new tech (GSAP) that enhanced visually our UI.
- Streamlined build and styling process with Material UI theme and components.

EXPERIENCE

Williamson Music 1st, Manager of Repair Shops, SOUTHLAKE, TX   **November 2016 – March 2022**

- Managed a team of seasoned and new repair technicians to raise quality and reduce costs, which resulted in a 20% increase in productivity and 40% reduction in shop costs across multiple locations.
- Mentored less experienced repair technicians to grow their skill sets and refine their work processes.
- Directed workflow, supply orders, commissions, payroll and administrative needs for the department.

Johnny Paul's Music Shop, Shop Foreman, ALEDO, TX   **December 2005 – November 2016**

- Orchestrated daily operations of departments at a single location shop and provided support to other departments.
- Built an amazing team of repair technicians who were able to work together to accomplish much larger school accounts than our shop was designed to handle.
- Formed relationships with directors at schools across north and central Texas that generated more growth for the company.

EDUCATION

Turing School of Software and Design, Denver, CO   **July 2022 - March 2023**

Accredited Frontend Software Engineering Certificate
