

ADRIANE SUTHERLAND • Software Developer

Kirkland, WA • asutherland91@gmail.com • 425-698-3505 • [LinkedIn](#) • [GitHub](#)

SKILLS

Front-End Development: JavaScript, CSS, React, TypeScript, HTML

API and DATA Fetching: Fetch API, GraphQL

Version Control: Git, GitHub

Testing: Mocha/Chai, Cypress

Design and User Interface: UI/UX Design, Accessibility, Wireframing

SOFTWARE PROJECTS

Game Night, Group Project | 80 hours | [GitHub Repository](#) | [Deployed Link](#)

Tech Stack: JavaScript, JSX, React, CSS, Cypress, GraphQL

Developed a web application on a full-stack team that is designed to allow users to create and join local board game events. Also uses OpenAI to take in users board game collection and make recommendations based on that to find new games they might enjoy

- Enabled cross-functional collaboration by fostering GraphQL proficiency in both front-end and back-end teams through individual self-guided learning.
- Demonstrated exceptional adaptability and communication skills while collaborating with both front-end and back-end teams for the first time, fostering a cohesive environment and successfully navigating the full stack development process.

Critter Companion, Solo Project | 20 hours | [GitHub Repository](#) | [Deployed Link](#)

Tech Stack: JavaScript, React, CSS, JSX, Cypress

Developed a web application designed to track the critters that users have caught and all the ones the users are still looking for in Animal Crossing: New Horizons.

- Incorporated and leveraged data from an unfamiliar API to enrich the application's capabilities.
- Implemented local storage so that changes persist through separate visits to the application.
- Examined user flows through comprehensive testing, implementing robust error handling mechanisms to handle any potential issues

Bootleg Barkeep, Group Project | 25 hours | [GitHub Repository](#) | [Deployed Link](#)

Tech Stack: TypeScript, React, CSS, JSX, Cypress

Developed a web application that allows users to select different alcohol types and get a list of different cocktails and how to make them.

- Collaborated on a team of 4 developers to create an application using TypeScript.
- Incorporated both class and functional React components.

PROFESSIONAL EXPERIENCE

Seattle Marriott Redmond, At-Your-Service Agent, Redmond, WA

09/2016

- Improved customer engagement scores by establishing a new standard for welcoming new guests to the hotel.
- Actively delegated tasks to appropriate individuals.

EDUCATION AND RELEVANT CERTIFICATIONS

Turing School of Software and Design, Denver, CO

2023

- Accredited Frontend Software Engineering Certificate

- Bachelors of Arts in Japanese
