TECHNICAL PROJECTS

Astros Insider, Solo Project | 30 Hours | [GitHub Repo](#)

- Independently designed and coded a responsive UI that displays a professional baseball team's selected information, giving users the option to add pieces of data to a favorites page.
- Implemented a user-friendly Spanish toggle feature, allowing users to seamlessly switch between English and Spanish navigation, enhancing accessibility and user engagement.

Technologies Used: React, CSS, Cypress, React Router, Fetch API

Makeup 360, Group Project | 60 Hours | [GitHub Repo](#)

- Maintained and improved code quality, organization, and automatization of a single page application with a cross-collaborative team using a project board and wireframe.
- Learned TypeScript and incorporated the technology within time constraints.

Technologies Used: React, CSS, Cypress, TypeScript, npm, React Router, Fetch API

PROFESSIONAL EXPERIENCE

Freelance UI/UX & Front-End Developer

March 2024 - Present

- Enhanced the visual appeal and functionality of a startup's website through strategic redesign.
