## PROJECTS

---

**OnTrack** | Group Project | [App](#) | [FE Repo](#) | [BE Repo](#) | 150 hours

*Full-stack SOA Rails app designed to enhance user's productivity by prioritizing tasks*

*Our team was chosen to present this app at a school-wide juried competition*

- Utilized agile methodologies in a team of 5 developers to successfully complete MVP
- Acquired proficiency in Bootstrap to implement a user-friendly UI/UX design for FE app
- Integrated 3rd party APIs, among them using OpenAI as a service to break down task steps
- Leveraged AWS S3 for secure photo storage, ensuring seamless retrieval and display

**Gear Up** | Group Project | [App](#) | [BE Repo](#) | 40 hours

*Full-stack SOA app which provides a platform where artists can crowdfund their projects*

- Collaborated with a team of front-end devs, from ideation and design to project completion
- Implemented GraphQL to enhance data query efficiency between front and back end
- Utilized Sidekiq and Action Mailer to send confirmation and update emails to app users

## EDUCATION

---

**Turing School of Software & Design** | Denver, CO 2023

ACCET Accredited Professional Certification in Back-End Software Development

**Truman State University** | Kirksville, MO 2014

Bachelor of Arts in Biology, Minor in French

## WORK EXPERIENCE

---

**Small Business Owner** | Outfit Repeater Vintage 2016-2022

- Oversaw end-to-end operations of an online boutique, gaining holistic insight of the business
- Developed inventory tracking system, utilizing spreadsheets for data management and analysis
- Provided excellent customer service resulting in 5-star ratings across platforms
- Ranked in Depop's top sellers, gaining verified shop status and driving an increase in sales

**Team Lead** | Rebecca's Gardens 2018-2021

- Acquired horticultural knowledge through continuous learning and on-the-job experience
- Guided and trained new team members, ensuring task focus during busy workdays
- Served as liaison to foster communication between clients and master gardener

**Manufacturing Technician** | Modular Robotics 2014-2016

- Collaborated with cross-functional teams during Scrums to address any production blocks
- Utilized a Kanban system on the assembly line to streamline workflow
- Involved in product troubleshooting and QA testing to ensure customer satisfaction
