

Luke Pascale | Backend Software Developer

lpascale@gmail.com - 405-778-9397 - [Linkedin](#) - [Github](#)

Originally in sales and marketing, now a software developer. Eager to have a positive impact on real world applications by applying business experiences and mastered skills to data frameworks. As a team player my goal is to help bring useful technology to market. Previous positions have helped develop the abilities to visualize, troubleshoot, and complete tasks ahead of schedule. With a focus on data structures and problem solving, I look forward to connecting my creativity, business acumen, and work ethic to the industry.

Skills:
