Frameworks/Hosting Frameworks: LocalHost, MVC, Heroku, Circle CI/CD

Databases: PostgreSQL

Tools: RSpec, Git, GitHub, Postman, Capybara, Launchy, Pry, Bootstrap, OOP, GraphQL

PROJECTS

Waste No More, group project, 60 hours, [View The Live App](#), [View The Repo](#)

This application was created with the aim of combatting the average amount of food waste that a family or individual creates each time they purchase groceries..

- Created back-end database, included relationships between models within local **postgresql database**, front end external API calls, **Bootstrap** styling with CSS, **Test Driven Development**, and user interaction flow
- Included third party authentication using Oauth through Twitter, and Google.
- **Tech Stack(s): Ruby, Ruby-on-Rails, HTML, CSS, Bootstrap**

Sweater Weather, solo project, 30 hours, [View The Repo](#)

This backend exposes API endpoints to the local machine through running a server on your computer through LocalHost that allows users to input information on locations, and road trips in order to be returned trip time, and weather dependent upon the API request.

- User authentication for API keys upon requests
- User input as a basis for API parameters
- **Tech Stack: Ruby, Ruby-on-Rails**

RELEVANT EXPERIENCE

Venturi Realty Group, Intern, Albuquerque, NM

March-2020 – July-2020

- Enhanced realtor tracking with managers using direct sales data
- Monitored realtor and client calls to identify areas of improvement, and assuring they are aligning with the company's mission
- Computed essential data and displayed the findings within charts on Google Sheets

EDUCATION

Turing School of Software and Design, Denver, CO

Expected Graduation Sep 2022

- Accredited Back End Software Engineering Certificate
- Agile Work Sprints during projects

Northern Arizona University, Flagstaff, AZ

Expected Graduation Dec 2022

- **Bachelors in Business Finance**
- Collaborated on teams using industry best practices, building modern/responsive financial services, and models to project future business performance
