- ActionCable

SOFTWARE PROJECTS

Project Title, Cat Rescue | 20 Hours | [Repository](#) | [Deployed Link](#)

Project Purpose: To build a functional and basic React-Router application within a very limited timeframe, solo.

Technologies Used:

- VS code, HTML, CSS, JavaScript, Terminal, React, Router, Cypress, Vercel Deployment.

Project Title, Grateful Together | 30 Hours | [Repository](#) | [Deployed Link](#)

Project Purpose: To build a functional React-Router application that applies a stretch tech we haven't learned before, in this case websockets with ActionCable.

Technologies Used:

- VS code, HTML, CSS, JavaScript, Terminal, React, Router, Cypress, Vercel Deployment, CircleCi, ActionCable, Styled-Components.

Project Title, Boardgame Gathering | 25 Hours | [Repository](#) | [Deployed Link](#)

Project Purpose: To build a functional React-Router app as a PWA, it was our 'stretch tech' for this mod, meaning we had to pick up a new tech and work from scratch with it.

Technologies Used:

- VS code, HTML, CSS, JavaScript, Terminal, React, Router, Cypress, Vercel Deployment, ProgressiveWebApplication, Service Workers.

PROFESSIONAL EXPERIENCE

Human Rights Campaign, DC, District of Columbia

- Marylanders for Marriage Equality, DC, District of Columbia

- Performed data entry using survey responses.
- Made cold calls to survey support and try to build a volunteer base.
- Organized volunteers in the fields and performed surveys.

- Illinois for Marriage Equality, DC, District of Columbia

- Performed data entry using survey responses.

- Made cold calls to survey support and try to build a volunteer base.
