I am a frontend software developer looking to gain some experience and learn as much as I can. I enjoy working with others and pushing my skills further.

<Skills/>

Test Driven Development, Unit Testing, Git flow, Node.js, Github, JavaScript, HTML, CSS, React, Cypress, Context API, TypeScript

<Projects/>

Gotta Ketchum All — Deploy: https://gotta-ketchum-all.herokuapp.com/
Technologies used: React, Typescript, Router

Gotta Ketchum All is a pokemon database app that allows users to view pokemon by generation and favorite their favorite pokemon.

Squizard's Spells — Repo: https://github.com/bpeterson2579/dnd-spells
Technologies used: React, Context Api, Router

Squizard's Spells is an interactive spell list for Dungeons and Dragons that allows users to save spells to a personal spellbook to be referred to while playing.

Rancid Tomatillos — Repo: https://github.com/bpeterson2579/rancid-tomatillos-1
Technologies used: React, Router, Cypress

Rancid Tomatillos lists movies pulled from an api and allows users to filter and view them for more details.

<Experience/>

Goodwill Industries of Colorado, Denver, CO — Employment Training Specialist
Sept 2013 - May 2021

I trained and supervised adults with disabilities in the field of janitorial work. Working with many different people and trying to get whole teams pulling in the same direction was a huge part of my daily duties.

<Education/>

Turing School of Software and Design, Denver, CO — Front End Engineering
July 2021 - April 2022
