

MAXIMILIAN WAGNER · BackEnd Software Developer

Fredericksburg, VA • maw3350@gmail.com • 540-760-8428 • <https://www.linkedin.com/in/maximilian-wagner3350/> • <https://github.com/MWagner3>

SKILLS

- Ruby on Rails
- ActiveRecord
- RSpec
- OOP
- Git/Github
- TDD
- Postman
- Html

SOFTWARE PROJECTS

My Meds, [Group Project], <https://github.com/MyMeds-Turing>

- Collaborated in a group of eight developers to create a service oriented application that organizes medication info and sends reminders
- Learning goals were to explore unfamiliar techs such as GraphQL and continuous integration via github actions
- Technologies used: Ruby on Rails, GraphQL, github actions, RSpec

Meet Me in the Middle, [Group Project], <https://github.com/MMIM-Turing>

- Collaborated with a group of six developers to create a service oriented application that gives suggestions for meetup locations
- Divided into teams to define and manage tasks through github projects
- Personally worked on the backend repository, helping to create api endpoints to store and retrieve user data, as well as displaying location data
- Implemented CI/CD by means of Github auto deploys and Circle continuous integration
- Technologies used: Ruby on Rails, Heroku, Circle CI, OAuth

EXPERIENCE

PMC Commercial Interiors, Interim Warehouse Manager, Morrisville, NC Jan 2020 – Aug 2020

- Provided communication between project managers and labor teams to arrange daily logistics
- Worked with management team to arrange optimal workforce numbers depending on workflow
- Tracked all incoming product and kept trucking schedule flowing in accordance with worker availability and project deadlines

Knowledge Management INC, Warehousing Specialist, Albany, GA Jul 2019 – Jan 2020

- Part of a ten man team selected to gather and organize inventory data for military assets totalling over 10 billion in value.
- Implemented digital scanner inventory system that could be used to complete base-wide inventory in a single day.
- Project cut labor cost of doing manual inventories by over 1.5 million annually

USMC, Sergeant, Warehousing Operations Supervisor, Various locations Jul 2017 – Jul 2019

- Led work teams between 10-20 Marines daily in the appropriate disposition of military assets as required by DLA disposition services
- Provided subordinates with monthly performance reviews, mentorship, and daily personal support.
- Acted as liaison between contracted civilian operation management and military workforce.

EDUCATION

Turing School of Software and Design, Denver, CO
Accredited Backend Software Engineering Certificate

November 2021–Present
Projected graduation Aug 11, 2022
