

DANIEL COCHICO III. Software Engineer

San Francisco, CA • dcochico.20@gmail.com • 650-440-2339 • [Linkedin](#) • [Github](#) • Portfolio

SKILLS

- React
- Fetch API
- ExpressJS
- React Router
- Cypress
- Knex.js
- JavaScript
- Mocha
- PostgreSQL
- HTML
- Chai
- CSS

SOFTWARE PROJECTS

Rancid Tomatillos | Paired Project | 15 hours | [Repo Link](#) | [Deployed Link](#)

Tech Stack: React, React Router, Cypress, Fetch API

Developed a web application that aggregates data for newly released movie titles

- Implemented Cypress alias, wait(), and fixtures in test suites to properly intercept network requests.
- Implemented Routes, including a 404 page to handle unknown routes.
- Implemented responsive design across small, medium, and large breakpoints.

Humor Me | Group Project | 25 hours | [Front-End Repo Link](#) | [Back-End Repo Link](#) | [Deployed Link](#)

Tech Stack: ExpressJS, Knex.js, PostgreSQL, React, React Router, Cypress

Developed a web application that allows users to generate and save various posters.

- Collaborated on a team of 4 developers to teach ourselves how to build our own server in Express, connect it to a PostgreSQL database, and host it on a deployment service.
- Implemented Cypress fixtures and commands to properly test async functionality.
- Mapped out extensions in a project board beyond our Minimum Viable Product.

What's Cookin'? | Group Project | 35 Hours | [Repo Link](#)

Tech Stack: JS, CSS, HTML, Mocha, Chai, Fetch API

Created an application that allows users to generate random romance novel covers.

- Collaborated on a team of 4 developers to implement fetch API for accessing data from provided Endpoints.
- Built a robust and thorough test suite, including tests for happy and sad paths.
- Implemented error handling to prevent user confusion

PROFESSIONAL EXPERIENCE

Meta | Screening Associate Shift Lead | Menlo Park, CA

07/2020 - 10/2021

- Oversaw the daily operations of a team of 100+ screening associates
- Implemented quality control procedures to ensure all screening results aligned with company policies.
- Conducted regular coaching sessions to help team members improve their skills and knowledge

EDUCATION AND RELEVANT CERTIFICATIONS

Turing School of Software and Design | Denver, CO

03/2023 - 09/2023

ACCET-accredited Frontend Software Engineering Certificate

Connecticut College | New London, CT

08/2016 - 05/2020

Bachelor of Arts - BA, Economics; Mathematics; Finance
