

# JASON ALBERTO • FRONTEND SOFTWARE DEVELOPER

Ottawa, ON • alberto.jason@gmail.com • +1.613.316.0850 • [LinkedIn](#) • [GitHub](#)

## SUMMARY

---

Frontend software developer with a past in Architecture and design - I like to build things people can use. I bring a keen ability to learn new subject matter, break down complex concepts, and effectively work in a multidisciplinary team.

## TECHNICAL SKILLS

---

- **Technology:** JavaScript, HTML5, CSS3, SASS, React
- **Testing:** Test Driven Development (TDD), Mocha-Chai
- **Other:** Git, GitHub, GitHub Projects, Markdown, webpack, fetch-API
- **Exploring:** Typescript
- **Spoken Languages:** Native level proficiency in English and French

## SOFTWARE PROJECTS

---

**Overlook**, Solo Project | 35 Hours | [Repo](#) | [Deployed Link](#)

**Tech Stack:** JavaScript, HTML5, SASS, GitHub, GitHub Projects, Mocha-Chai, Webpack

*Created a web application to simulate a hotel dashboard allowing users to book and view past / upcoming rooms*

- Succeeded in implementing SASS for a first project
- Sharpened network request skills by implementing error handling to display failed network requests on the DOM
- Self-taught how to implement a tab trap to improve the user experience when navigating solely with a keyboard

**Rock • Paper • Scissors**, Solo Project | 15 hours | [Repo](#) | [Deployed Link](#)

**Tech Stack:** JavaScript, CSS3, HTML5

*Developed a web application game of rock, paper, scissors from scratch*

- Exceeded project spec requirements to include local storage to have user scores persist on page refresh
- Implemented additional features such as selecting an avatar and the number of rounds to play
- Improved JavaScript competency by utilising event delegation

**Whats Cookin**, Group Project | 30 Hours | [Repo](#) | [Deployed Link](#)

**Tech Stack:** JavaScript, CSS3, HTML5, GitHub, GitHub Projects, Mocha-Chai, Webpack

*Created a web application to select and save recipes for cooking using a local node.js server*

- Utilised TDD practices, creating 43 tests to ensure comprehensive code coverage and functionality
- Compiled user feedback from usability tests and implemented relevant feedback to improve product
- Demonstrated understanding of network requests by implementing the Fetch API to GET, POST and DELETE

## PROFESSIONAL EXPERIENCE

---

**Apprentice: Frontend Engineer** | Turing School of Software & Design | Remote 03/2023 – 09/2023

- ACCET-accredited; JavaScript leveraging the React framework engineering program; completion set for September.

**NEUF architect(e)s** | Senior Architectural Technologist | Ottawa, ON 08/2011 – 03/2023

- Demonstrated progressive growth and responsibilities until promoted to senior level
- Supervised a small team of junior collaborators and mentored new hires
- Collaborated on teams of multidisciplinary professionals to realise over 25 projects with budgets up to 120 million dollars
- Partnered with stakeholders and shareholders to ensure the successful delivery of the projects

## EDUCATION AND RELEVANT CERTIFICATIONS

---

**Turing School of Software and Design** | Accredited Frontend Software Engineering Certificate 09/2023

**Algonquin College** | Bachelor of Science (B.S.) in Building Science 05/2020

**Algonquin College** | Advanced Diploma (OCAD) in Architectural Technology 05/2011
