ANDREA SORENSEN FRONT END DEVELOPER

aksorensen29@gmail.com| 707.296.5418 | | [LinkedIn](#)| [GitHub](#)

SKILLS

JavaScript, CSS, HTML5, Mocha & Chai, Code Review, TDD, Version Control (Git), GitHub, Web Accessibility, Fetch API, React, React Router, Cypress E2E Testing, TypeScript, Responsive Design

PROJECTS

Dilettante's Muse| Team Project | 25hrs. |[Github](#) | [Deploy Link](#)
- In collaboration with a talented team, I played a crucial role in developing Dilettante's Muse, an exciting application that offers a fresh approach to art exploration, built for users who are just beginning their art exploration journey. Using React, TypeScript, React Router and Cypress E2E testing, we designed a responsive site that allows users to explore and save their favorite pieces of art, all housed at the MET in New York.
- Overall, Dilettante's Muse represents our collective expertise, creativity, and commitment to excellence. By developing this app, I further honed my technical skills, project management capabilities, and collaboration abilities, positioning myself as a valuable contributor to future software development endeavors.

Yogability | Solo Project | 20 hrs | [Github](#) | [Deploy Link](#)
- This project was developed during a 6 day sprint in order to showcase my abilities to quickly and effectively implement React.js, Router & Cypress E2E testing by developing a front-end app that meets a very specific MVP. Complete with wireframing, restAPI, user-personas & user-stories, I was able to create a responsive, accessible app, which showcases different asanas to the user based on their current experience level.
- I had a lot of fun building this app, because it allowed me the opportunity to be creative & have fun! Due to the strict timeline & limited features available to build, it enabled me to think small & really identify what the user needs to meet the project specs. Identifying my user, shaped the app & helped me make decisions about the functionality. There will be more extensions coming, further honing in my software developer skills

EDUCATION

Turing School of Software & Design
- ACCET Certificate of Completion in Front End Engineering

EXPERIENCE

Dazey's Supply | 2014 – 2022 | Assistant Manager
- Assisted in managing a team of employees, providing guidance, training, and support to ensure exceptional customer service and operational efficiency.
- Used my natural problem-solving, curiosity, and attention to detail, which helped me discover huge errors within our receiving department, which saved the company tens of thousands of dollars.
