

# Gabriel Nunez

Software Developer • Tucson, AZ • (520) 548-6879  
[gabriel.c.nunez@gmail.com](mailto:gabriel.c.nunez@gmail.com) • [LinkedIn](#) • [GitHub](#)

---

## SKILLS

- **LANGUAGES/Frameworks:** Ruby on Rails • SQL • JavaScript • ReactJS • HTML5 • CSS3
- **SYSTEMS/PRACTICES:** Git/Version Control • GitHub Projects/JIRA • RESTful JSON APIs • GraphQL • CI/CD • Relational Databases/Postgres • Software Development Lifecycle • Agile Methodologies
- **TESTING:** RSpec • SimpleCov • Capybara • WebMock/VCR • FactoryBot • PyTest • Automated Testing
- **CURRENTLY LEARNING:** AWS • Python • FastAPI • Django • Flask • Docker

## PROJECTS

**MENU-IFY** • [Group Project](#) • 7 Person Team • 16 days

*JavaScript, ReactJS, Ruby, Ruby on Rails, Python, FastAPI*

02/2023

- Mobile-friendly application for restaurants to create intuitive, easy-to-read menus for their customers
- Practiced agile development for two-week sprint, including brainstorming for MVP, collaboration between teams during application development, and providing feedback during retrospective
- Designed and fully tested photo search microservice using Python with FastAPI framework

**BIK-N-BRU** • [Group Project](#) • 5 Person Team • 9 days

*Ruby, Ruby on Rails, Bootstrap, Postman, PostgreSQL*

01/2023

- Ruby on Rails monolith where users log activities through Strava and locate breweries in their area
- Employed OAuth while aggregating information from three distinct APIs to enhance user experience
- Headed activities index and show page development, with focus on sad path and edge case testing

**LUNCH AND LEARN** • Solo Project • 3 days

*Ruby, Ruby on Rails, RSpec, Postman, PostgreSQL*

01/2023

- Back-end service consuming four external APIs to expose six endpoints for use by front end application
- Leveraged WebMock and VCR within automated test suite to stub client requests and API calls
- Built to simulate real-world challenge of developing application based on needs of other developers

## WORK EXPERIENCE

**Title Security Agency - A First American Company** • Tucson, AZ

*Manager, Account Servicing*

01/2020-08/2022

- Guided team of four employees through change-heavy environment of servicing 3,000+ privately financed real property loans through thoughtful leadership, ever-evolving priority management, and effective communication with a wide variety of stakeholders
- Reconciled bank and system ledgers every business day for unit transacting up to \$15,000,000 per month
- Planned and coordinated relocation of department into two different office spaces within 3-month period
- Accepted into Emerging Leader, First American's flagship leadership development program

## EDUCATION

**Turing School of Software and Design**, Denver, CO

*ACCET-accredited Backend Software Engineer Certificate*

08/2022-03/2023

- 1500+ hours spent programming in a 7-month, fully remote software engineering program
- Completed 13 unique coding projects, with concentration on learning new technologies in back end development while utilizing front end technologies to create fully realized web applications
