PROJECTS

FRONTEND WEBSITE DESIGN & DEVELOPMENT

Avian Anthems 4-person group project | 40 hours | GitHub
- Using React Router, JSX, Typescript, Cypress, we built a website around a birdsong API
- Co-created this interactive, responsive site, remotely, using Agile project management in 8 days
- Taught ourselves Typescript and used it in the application

Rancid Rutabagas 2-person project | 50 hours | GitHub
- Using React Router, JSX, CSS, PropTypes, Cypress, we built a website to display movie reviews

Tic Tac Meow Solo project | 20 hours | Link to play
- Developed an app that allows users to play Tic Tac Toe with funny cats with Javascript, CSS, HTML
- Designed game logic and responsiveness allowing users to place tokens and celebrate wins

UX DESIGN

Ideal Gifts 3-person design-sprint team | one week | Video demo & presentation
- Developed an interactive prototype for a gift-giving app
- Conducted market and user research to inform product and design
- Conducted user testing and interviews that led to improvements in iterations
- Wrote user surveys, interviews scripts, and all micro and marketing copy

NPR One app | Solo Project | 10 days | Case Study
- Redesigned landing page of existing news app
- Used research-driven design to suggest improvements based on user interviews, testing, and research

WRITER, GRAPHIC DESIGNER, COPY EDITOR, Austin, Tucson, Denver
- Wrote website copy, press releases, newspaper columns, feature articles, social media posts
- Designed annual reports, brochures, and digital and print material for universities, non-profits

CO-FOUNDER, THE RESTORATION PROJECT AT CASA MARIPOSA, Tucson
- Imagined and co-led the formation and work of this ongoing community-based organization
- Supported people detained in and released from immigration detention centers near Tucson
