SOFTWARE PROJECTS

[The Art Of The Cocktail](#) | [Repository](#) | Solo Project | 45 hours 11/2022

Gives a user the ability to discover art while enjoying a cocktail from the comfort of their couch.

- Makes learning fun and sparks the imagination, giving the user the ability to add, save and delete their favorite cocktails and using a Restful API.
- Implemented React, React Router, and local storage.
- Technologies Used: React, Express, Cypress, HTML, CSS, Git, GitHub.

[The D.E.D Library Society](#) | [Repository](#) | Group Project | 3 person team | 60 hours 11/2022

Allows the user to explore over 5 million books, by creating a serene UI/UX to discover something they have not read before.

- Eliminates the overwhelming experience of browsing apps like Amazon, by simply returning a list of 100 trending books each day. Gives the user the ability to find any book their heart could desire.
- Implemented React, React Router, and Redux for global state management.
- Technologies Used: React, Redux, Cypress, HTML, CSS, APIs, Git, GitHub.

[Rancid Tomatillos](#) | [Repository](#) | Group Project | 2 person team | 80 hours 10/2022

Ever had trouble finding a movie to watch? Rancid Tomatillos takes the struggle out of the process, now all you have ahead of you is the enjoyment of picking a movie and watching a trailer.

- Allows seamless scrolling through movie thumbnails or searching for a film by title. Clean, beautiful UI.
- Technologies Used: React, React Router, JavaScript, HTML, CSS, Cypress, Git, GitHub. Third-party libraries: React-Stars & React-Modal.

EXPERIENCE

The Standard Hotels, New York, NY 12/2016 - 2/2020

Produced and managed events from start to finish. Developed and managed employee manuals, side work, and scheduling, for a team of 15 employees.

Cobalt Stages, Associate Producer, Hoboken, NJ 6/2015 – 5/2017

Associate Producer, promoted from project coordinator. Responsibilities included projects that were executed on time and on budget. I was writing copy and managing various social media platforms. Sourced material for various projects. Organized internal documents, as well as, kept all office calendars up to date.

EDUCATION

Turing School of Software and Design, Denver, CO 5/2022 - 1/2023

Accredited Frontend Software Engineering Certificate

New York University, New York, NY
