

Deanna Sofia Stevens • Front-End Software Developer

Athens, GA • deanna.sofias@gmail.com • (706) 504-8232 • [Linkedin](#) • [Github](#)

Engineer with 17 years of experience in public/client relations, staff management, project management, and event logistics. Empathetic, creative and driven individual with an attention to good design and collaborative problem solving at any scale.

SKILLS

Languages/Frameworks: React, JavaScript ES5 & ES6, HTML5, CSS, Mocha, Cypress, Typescript

Tools/Workflow: Restful APIs, Git, GitHub, GitHub Projects, Accessibility Practices, Responsive Web Design

Languages: English, Portuguese, Spanish

SOFTWARE PROJECTS

WFHunter, Solo Project | 5 day sprint | [Repo link](#) | [Deployed project](#)

Built a mobile-first web application for a remote jobs board with the ability to favorite and remove jobs from a personalized list. Designed the multi-page UI with raw CSS, responsive breakpoints, and E2E Cypress testing as a React app with React Router. Utilized async fetch method for GET network requests to a live RESTful API.

Mixtape, Team Project | 1 week sprint | [Repo link](#) | [Deployed project](#)

Designed the concept and architecture for a React application to select tracks from a collection of 80s albums. Created the endpoints for the collection by curating a selection from the Discogs API with an OAuth network request, tested using Postman. Self-taught and implemented TypeScript in an agile collaborative context. Features include responsive breakpoints, Cypress testing, and UI to add and delete songs to a “mixtape.”

Rancid Tomatillos, Paired Project | 1 week sprint | [Repo link](#) | [Deployed project](#)

Developed a web application using React, React Router and a RESTful API to display movie choices and details. Integrated Cypress testing, PropTypes and responsive design across multiple breakpoints. Utilized Git workflow practices for team collaboration and optimized the project to use the latest version of React Router.

PROFESSIONAL EXPERIENCE

Manager/Barista

La Colombe Coffee Roasters - Philadelphia, PA

05/2023 - 10/2021

Met high volume demand in fast-paced locations, coordinating across several locations and teams up to 30.
