

REILLY MILLER. Software Engineer

Denver, CO • reillymiller31@gmail.com • 765-620-6136 • [Linkedin Profile](#) • [GitHub](#)

SKILLS

- Ruby, Ruby on Rails, PostgreSQL, SQL, HTML, CSS, ActiveRecord, TDD, ORM, API, AWS, CircleCi, Postman, Python, Django, Github Actions, Pytest

PROJECTS (group and solo)

PlayPal Group Project | 70 hours | https://github.com/front_end | https://github.com/back_end

Developed a unique open sourced playground finding application

Technologies Used: Ruby, Rails, HTML, CSS, Rspec, PostgreSQL, AWS, Render, APIs, CircleCI

- Collaborated to plan project from inception to completion
- Made app mobile friendly and open sourced utilizing AWS S3 bucket
- Created an SOA app; built an API that allows users to rate, review, and upload photos of playgrounds

StreetEatz Group Project | 60 hours | <https://www.github.com/streeteatz> |

Developed an app that connects food truck vendors and users

Tech Stack: Python, Django, Pytest, API, PostgreSQL, Heroku, Miro, Github Actions, React, Cypress

- Created an app for users to find food truck vendors in their area, see their menu, and wait time
- Allow vendors to broadcast when they are open utilizing websockets
- Allow users to search for food trucks, add to favorites, upvote or downvote
- Built an API and used SOA for the application with a full stack team

SweaterWeather, Solo | 40 hours | https://github.com/whether_sweater |

Tech Stack: Ruby, Rails, RSpec, PostgreSQL, API, Data validation

- Design, develop, test, and integrate an API with several endpoints while consuming data from multiple APIs
- Retrieve data from multiple APIs to give travel time for a trip and the weather when user will arrive
- Manipulate API data to return current forecast, hourly forecast, and 5 day forecast for a given location
- Enable user creation; login required for restricted API endpoints using session data

PROFESSIONAL EXPERIENCE

Taste of Philly, Manager, Denver, CO

2015-2021

- Managed a team of 20 people to reach daily sales goals
- Resolved over 30 customer complaints per week by phone and email for multiple locations
- Implemented a new POS system to optimize our sales and track our progress throughout the day

Employment Plus, Intern, Bloomington, IN

2010

- Created workplace education courses for clients to use for their employees
- Develop list of potential clients and initiate contact to create relationships
- Utilized teamwork to reach goals in hiring quality candidates

EDUCATION AND RELEVANT CERTIFICATIONS

Indiana University, Bloomington, IN

2011

Bachelors of Science in Non-Profit Business Management

Turing School of Software and Design, Denver, CO

2023

Accredited Backend Software Engineering Certificate
