PROJECTS

Consultancy - en Root, [GitHub](#), *Group Project (Five Person Team)*

- Built an application using service oriented architecture, incorporating two external APIs
- Used CSV file data and to seed our plants database with information from the file
- Tested using RSpec, mocks & stubs, VCR and SimpleCov; with a coverage of 99%

Little Esty Shop, [GitHub](#), *Group Project (Four Person Team)*

- Built a program that functions as an online marketplace with merchants, items and invoices
- Implemented an API call to present contributors on the team
- As a solo extension, I created a Discount class, controller and functionality as a secondary sprint

Night Writer, [GitHub](#), *Solo Project*

- Application designed to read a text file, translates into braille, and writes a new text file
- Emphasis was on practicing reading and writing text files
- Tested using RSpec and SimpleCov, with full coverage

WORK EXPERIENCE

REI, Petaluma CA/ Denver CO *Sales Associate*

- Advised customers on gear required for their trips after assessing their needs
- Worked with a large team to ensure the store was running smoothly using Microsoft Teams

Artwerks, Petaluma CA *Art Handler/ Installer*

- Handled the careful transport of hundreds of delicate works, between artists, galleries and clients
- Installed paintings and sculptures in both private residences and corporate offices
