

SHIRLEY DECESARI Software Developer

Reno, Nevada • shirley.decesari@gmail.com • 720-210-8730 • [Linkedin](#) • [Github](#)

SUMMARY

Motivated and detail-oriented junior backend developer with a strong foundation in computer science concepts and practical experience building and maintaining web applications. Proficient in languages such as Ruby and Ruby on Rails, with a passion for problem solving and a drive to constantly learn and improve. Seeking a dynamic and fast-paced environment where I can continue to grow and develop as a developer and make a meaningful contribution to a team.

SKILLS

- Ruby(Rails, ActiveRecord)
- HTML/CSS/Bootstrap
- CircleCI
- GraphQL
- SQL
- TDD
- Heroku
- Agile
- Git & GitHub
- Rest APIs
- Postman

SOFTWARE PROJECTS

Relational Rails | solo project | [Repository](#) 07/22

As a solo project, I used an Agile workflow to develop web pages that enable users to create, read, update, and delete resources. I implemented a one-to-many relationship and implemented instance and class methods that leverage ActiveRecord methods and helpers. I also used test-driven development (TDD) and utilized technologies such as ActiveRecord, GitHub, Heroku, HTML, and CSS.

DreamBook | group project | [Front-End Repository](#) [Back-End Repository](#) 09/22

As a group project, my team and I used an Agile workflow to create a dream blog web application featuring a back-end API and front-end interface. The front-end was able to consume the back-end API and display the data to users. We employed technologies such as Rails, Test-driven development (TDD), GitHub, and Heroku as well as Bootstrap for styling.

ConcertCrew | group project | [Front-End Repository](#) [Back-End Repository](#) 10/22

As a group project, my team and I used an Agile workflow to build an app that assists friends in connecting over upcoming concerts. The back-end of the app exposes an API that stores user information, events, and friends. We utilized technologies such as Rails, test-driven-development (TDD), GitHub, Heroku, PostgresQL, GraphQL, Postman, and CircleCi in the development of this project.

EXPERIENCE

All for Kids Home Health, Billing & Payroll Specialist, Denver, CO 06/17 to Present

- Responsible for completing all aspects of billing and payroll each week
- Participated in regulatory meetings and applied learnings to maintain compliance
- Ensure that all prior authorization requests are approved by the state
