## Professional Summary

---

I am a recent graduate from Turing School of Software and Design's Back End Engineering program. I'm very interested in a junior-level software engineering position. My greatest strengths are Ruby on Rails and Python. I'm excited to start my career in the Software Engineering field. As a military veteran, working with people from a wide variety of backgrounds in a fast-paced environment are like second nature.

## Skills

---

- CSS
- Python
- PyTest
- Ruby on Rails
- RSpec
- PostgreSQL
- Agile Sprint Planning
- Software Debugging

## Education

---

*Certificate of Completion - Back End Engineering*

*Aug 2023*

*Turing School of Software and Design - Denver, CO*

- Member, Student Leadership Council

## Projects

---

### InkLink

- Inklink is an app developed during my time at Turing School of Software and Design with a team of 4 back-end students.
- It uses a PostgreSQL database with Ruby on Rails framework, utilizing Bootstrap for the front end portion.

- You can find the app, deployed using Heroku, at <https://inklink.herokuapp.com>
- Front end repository - [https://github.com/brenicillin/inklink\\_fe](https://github.com/brenicillin/inklink_fe)
- Back end repository - <https://github.com/margdaly/inklink-be>

## FlightLog

- FlightLog was also developed during my time at Turing, with a team of 3 back-end students and 4 front-end students.
- Built with React Native on the front end, and Python with Django framework, connected to a PostgreSQL database on the back end.
- This app is deployed on Vercel at <https://flight-log-six.vercel.app>
- Repositories can be found at <https://github.com/Flight-Log>

## Experience

---

### *Intake Coordinator*

*Jun 2021 - Sep 2022*

#### *Humane Society of Tampa Bay - Tampa, FL*

- Prepared detailed documentation to facilitate seamless client intakes.
- Resolved customer complaints and answered policy and procedure-related questions.
- Assisted team members in resolving complex issues with critical thinking and tactful communication.

### *Kitchen Manager*

*Jun 2016 - Oct 2020*

#### *10 Barrel Brewing Company - San Diego, CA*

- Managed inventory and controlled labor costs to reach profit goals.
- Recorded production and operational data for robust and up-to-date recordkeeping.
- Interacted with guests to obtain feedback on product quality and service levels.

### *Culinary Specialist*

*Aug 2011 - Sep 2015*

#### *US Navy - Norfolk, VA*

- Instructed cooks and kitchen assistants, helping to improve team performance.
- Scheduled repair and maintenance work for kitchen equipment to minimize downtime and disruption.
- Organized production schedules to maintain consistent service delivery.
- Mentored new sailors to assimilate quickly into hardworking team in fast-paced environment.
